

Second Bulletin: CIPANP 2018
cipanp18.berkeley.edu.

The 13th Conference on the Intersections of Particle and Nuclear Physics (CIPANP 2018) will be held May 29-June 3, 2018, at the Hyatt Regency Indian Wells, near Palm Springs, CA. An electronic version of the conference poster is attached.

The conference conveners are currently organizing the parallel sessions, which will include both contributed talks and talks solicited by the conveners because of their relevance to CIPANP themes. The sessions will be arranged around the following topics:

- Physics at High Energies
- Precision Physics at High Intensities
- Cosmic Physics and Dark Energy, Inflation, and Strong-Field Gravity
- Neutrino Masses and Neutrino Mixing
- Tests of Symmetries and the Electroweak Interaction
- Dark Matter
- Particle and Nuclear Astrophysics
- Heavy Flavors and the CKM Matrix
- QCD, Hadron Spectroscopy, and Exotics
- Parton and Gluon Distributions in Nucleons and Nuclei
- Nuclear Forces and Structure, NN Correlations, and Medium Effects
- Quark Matter and High Energy Heavy Ion Collisions

Please submit your abstracts soon, so they can be optimally placed in the sessions being organized.

Plenary talks: The plenary talk schedule is available on the web site.

Registration: Registration is open, and the early-bird registration fee will remain in effect until April 20. Please register now, and reserve a room at the conference hotel (which provided an attractive rate for our group).

Abstract submission: Abstract submission is done through the conference's Indico site, as described on the main web page. We ask contributors to submit prior to April 20, or sooner if possible.

Financial support: As the support available to participants is limited, priority will be given to younger researchers who register prior to April 20. The application form is available on the web site.

Wick Haxton (haxton@berkeley.edu), for the Organizing Committee

13th Conference on the Intersections of Particle and Nuclear Physics

May 29 - June 3

Hyatt Regency Indian Wells Resort and Spa, Palm Springs, CA

Parallel Session Topics

- *Dark Matter*
- *Physics at High Energies*
- *Neutrino Masses and Mixing*
- *Particle and Nuclear Astrophysics*
- *Heavy Flavor and the CKM Matrix*
- *High Intensity and Precision Physics*
- *Hadrons: Spectroscopy, Form Factors, and Exotics*
- *Tests of Symmetries and the Electroweak Interaction*
- *Quark Matter and High Energy Heavy Ion Collisions*
- *Parton and Gluon Distributions in Nucleons and Nuclei*
- *Cosmic Physics: Dark Energy, Inflation, Strong-Field Gravity*
- *Nuclei, Nuclear Structure, NN Correlations, and Medium Effects*

International Scientific Advisory Board

Ed Blucher, Chicago
Angela Bracco, INFN
Roy Briere, Caregie Mellon
Peter Braun-Munzinger, GSI
Joe Carlson, LANL
Don Geesaman, ANL
Paolo Giubellino, FAIR, GSI
Thomas Glasmacher, MSU
Geoff Greene ORNL, Tennessee
Francis Halzen, Wisconsin

Tetsuo Hatsuda, RIKEN
Dave Hertzog, Seattle
Xiangdong Ji, Shanghai
Young-Kee Kim, Chicago
Reiner Kruecken, TRIUMF
Yoshitaka Kuno, Osaka
Robert McKeown, JLab
Richard Milner, MIT
Shoji Nagamiya, J-PARC
Jamie Nagle, Colorado

Ornella Palamara, FNAL
Dan-Olof Riska, Helsinki
James Ritman, Juelich
Steve Ritz, Santa Cruz
Kate Scholberg, Duke
Hank Sobel, Irvine
Anthony Thomas, Adelaide
Robert Tribble, BNL
Mike Witherell, LBNL

Organizing Committee

Kev Abazajian, Irvine
Helen Caines, Yale
Brendan Casey, FNAL(vice-chair)
Vincenzo Cirigliano, LANL
Paula Collins, CERN
Dan Dwyer, LBNL
Bonnie Fleming, Yale (past chair)

Heather Gray, LBNL
Wick Haxton, Berkeley (chair)
Krishna Kumar, Stony Brook
Reina Maruyama, Yale
Filomena Nunez, MSU
Feng Yuan, LBNL
